To whom it may concern:

Our Firm retained Gilmore & Associates to supply one of our clients with ALTA surveys on ultimately a total of ten (10) properties in December 2003. The number of surveys grew to ten (10) because of other firms' inability to deal with our client's realistic needs. Gilmore & Associates was willing and able to fulfill the need. The ALTA surveys were completed in a timely fashion, with regular updates as to the progress so that we were able to anticipate delivery dates and other obstacles in meeting our client's deadline. Because of Gilmore & Associates' dedication and professionalism, there were no delays even under adverse conditions.

As a result, we continue to have Gilmore & Associates provide our clients with ALTA surveys, as well as other types of surveys, and highly recommend Gilmore & Associates to our clients.

In addition to working with the surveying departments of Gilmore & Associates, we have had the pleasure of working with the Gilmore & Associates Environmental Team. Again, the professionalism and quality of work was evident and both our Firm and our clients were very pleased.

The opportunity to work with surveying and engineering firms presents itself regularly in our profession, and Gilmore & Associates is on our "A" list.
