

GILMORE & ASSOCIATES, INC.

FULL SERVICE CIVIL ENGINEERING & CONSULTING

Gilmore & Associates, Inc. was founded in 1918 and consisted of a two-man surveying firm located in and serving the Central Bucks County area. Since that time, Gilmore & Associates, Inc. has grown as an employee-owned company in a carefully planned fashion, along with the growth of the mid-Atlantic region. We currently have six office locations and employ more than 110 professionals and staff. The basis of our growth has been through repeat, long-term clients and referrals from the same. Gilmore & Associates, Inc. continually ranks as one of the top Engineering and Consulting firms in the greater Philadelphia area, and we pride ourselves in staying current in the industry so that we are able to anticipate and address our clients' needs, and work with them through a successful project

With our growth, our service offerings have expanded substantially. We provide all of the services typically required by authorities, municipalities, and private clients with our in-house professional staff including:

- **Land Surveying**
- **Site/Civil Engineering - Land Planning & Design**
- **Municipal/Governmental Engineering**
- **Water/Wastewater Engineering**
- **Geotechnical Engineering**
- **Sustainable Resources Design (LEED®)**
- **Transportation Engineering and Planning**
- **Landscape Architecture**
- **Environmental/Geosciences**
- **Construction Administration, Observation, and Testing.**
- **Geographic Information Systems (GIS) / Information Technology**
