

GILMORE & ASSOCIATES, INC.

FULL SERVICE CIVIL ENGINEERING & CONSULTING

THE SCOTT ARBORETUM WISTER EDUCATION CENTER Swarthmore, PA

The Scott Arboretum, located within the Swarthmore College campus, opened their new 5,200 square foot Wister Education & Greenhouse Facility in November of 2009. The building will provide a new home for the horticultural and research functions of the Arboretum, as well as outreach education for the community.

The Arboretum is seeking silver Leadership in Energy and Environmental Design (LEED®) certification from the U.S. Green Building Council for this project. Gilmore & Associates, Inc. (G&A) provided survey, site/civil and geotechnical services for the facility, which incorporates innovative stormwater management and rainwater harvesting techniques into the resource conservation strategy.

Services Provided by G&A

- Surveying
- Site/Civil
- Geotechnical Retaining Wall Design

G&A was named a Green Building of America Award-winning Team Member for their involvement in this project.
