

GILMORE & ASSOCIATES, INC.

FULL SERVICE CIVIL ENGINEERING & CONSULTING

NESHAMINY HIGH SCHOOL RENOVATION Middletown Township, PA

The Neshaminy School District commenced construction activities in June 2006 for the Neshaminy High School Alteration/Renovation Project. The current high school was constructed in the late 50's. Gilmore & Associates, Inc. was responsible for providing the professional services as related to this 40-month duration construction project.

Gilmore & Associates, Inc. worked closely with the project architect, ATS&R, to provide the civil/site layout and design, as well as construction project and administration for the sitework contract. Gilmore & Associates, Inc.'s surveying department provided construction stakeout services for the sitework prime contractor and Building Trades prime contractor. Construction materials testing and observation services were conducted on behalf on Neshaminy School District. Gilmore & Associates, Inc. also provided State highway improvement design and approval through PennDOT.
